

## Safety Committee Meeting

April 16, 2007

Committee member met with Eagle Point Manager John Tarnowski and Bill Behrhof of Eagle Point Maintenance @ 9:00 AM. Bill showed the committee where the potable and non-potable water shut-off valves are in the park. John showed us the emergency generator and how it works. He also showed where to hook up the portable generator to the sewer system and how to set the electrical switches. Bill and John showed us where the portable generator is and where the fuel for it is kept. They will try to have a golf cart set up for us in case of a hurricane. They will put the generator, chain saws, rakes, shovels, etc on the golf cart.

Attached are photos of the Shut-offs, Generator, etc.

Meeting ended at 9:50

Next meeting April 23<sup>rd</sup> @ 10:00 am
