

Safety committee meeting

July 9, 2007

In attendance: Larry Strother, Tom Young, Helen Torguson, Jim Raftery, Don MacLean and EPHI Manager John Tarnowski.

Larry showed members approval letter from EPHI board to install 3 posts with reflectors at pond end of Lake Street.

Helen presented suggestion that we freeze gallon jugs of water for disaster preparation.

Jim presented need to inform entrance security guards of individuals other than residents that should be allowed access to EPHI in the aftermath of a disaster.

Members discussed suggestion received to build a block security building by EPHI entrance. The final consensus was only a temporary/portable building would be considered.

Larry reported all necessary supplies for Safety committee have been purchased and are stored in the EPHI office.

Larry reported that Ventura Lakes is NOT a hurricane shelter. Neither is the EPHI Social Hall. The laundry door of the Social Hall will be unlocked and be available as a refuge in the event of a disaster but it is NOT a Shelter. We will put a sign on the laundry door to that effect.

Discussed making a safety committee presentation at the August 13th "Charley Party" We will work on it at our next meeting.

Don is looking for Hurricane Charley Photos on CDs that he can loan into his laptop to set up as a slide-show for the Charley Party. He will also show people how to get the Hurricane Center tracking website icon loaded onto their individual computers so that they can track hurricanes past, & current.

Jim Raftery will be gone from 8/23/07 through 9/6/07

Helen Torguson will be gone from 8/8/07 through 8/16/07 and 9/17/07 through 9/29/07.

Next meeting Auguat 6th, 2007 # 10:00
