

Building and Grounds Committee Meeting

November 29, 2010

10:00 A.M.

Members present: Johnny Taylor, Tommy Young, Lois Bauer, George Rumpza and Larry Dobson

Two (2) request for tree removal were reviewed.

- 1. No. 118 – Removal of 2 dying fruit trees. Approved**
- 2. No. 151 – Removal of 1 live oak tree. Not approved due to fact the tree appears to be healthy.**

Road Repair: Road repairs were reviewed and we feel we need further meeting with contractor to clarify details.

Replacement of fountain in pond was reviewed with cost of most replacement units is the \$1600.00 - \$2000.00 range. Subject was tabled pending further review.

Purchase of Christmas lighting for the fence area along Center Street was discussed. Consciences was LED lighting would be the best option due to low power usage and capability of running long strands with one outlet. Secondary questions were discussed as to whether we need lighting in this area and if we purchase lights, we will also need the recommended garland which will add more to the cost.

Motion to adjourn was made by George Rumpza, seconded by Tommy Young at 11:30 A.M.

Respectfully submitted

Larry Dobson
